

Inventor Biography

Sent home today is an inventor biography. Students must choose an inventor and complete the attached papers (2). On the Biography Graphic Organizer, students should write neatly and have a drawn picture or printed picture of their inventor in the box. Students should have a few details about the inventors early life, what he/she is famous for, some adjectives to describe the inventor, some fun facts, and the inventors birthday.

On the light bulb page, students should choose one invention from the inventor they chose and explain the invention, what it does, and how it makes life easier.

Students can use PebbleGo to choose an inventor and research. Go to: PebbleGo then click "sign in". The username is: sntschooll and the password is: school

*This report is due in class on Monday, 5/24

*Online learners, please upload a picture of your completed project onto Seesaw

*Students will be presenting these projects and telling us *some* of the things they learned about their inventor!
